Project

Tic-Tac-Toe Game - Personal project

- Developed a classic two-player tic-tac-toe game using HTML, CSS, and JavaScript.
- Implemented game logic and user interface for player interactions within a 3x3 grid.
- Enhanced interactivity with features like reset functionality.
- Strengthened skills in web development and problem-solving.

Portfolio website - Personal project

- Crafted a dynamic portfolio website using HTML, CSS, and JavaScript, featuring interactive project showcases, responsive design, and optimized performance.
- Created a personalized design with CSS styling to ensure a visually appealing and professional presentation.
- Committed to ongoing updates and improvements to reflect evolving skills and showcase latest projects and accomplishment.

Multi-Purpose Web App with Voice Command Integration - Team project

- Created a full-stack web app featuring authentication, live weather updates, and Google Drive-like storage. Integrated voice commands via Alan AI for seamless user interaction.
- Utilized the open weather API to fetch current weather data and displayed it in the form of cards on the webpage for easy access.
- Implemented Google Drive-like storage functionality using Firebase, allowing users to store and access their data seamlessly within the application.

Certificate

- 100 days of code Web Development Bootcamp -Udemy
- Java -HackerRank
- SQL-HackerRank
- Security, Compliance, and identity Fundamentals-Microsoft
